

# People (HR & Recruiting)

Over the course of an eight-week paid internship in the summer of 2022, Emerson Collective will catalyze an extraordinary and talented group of college students through mentorship, enriching programs, and meaningful work experience.

Interns for the EC Internship will work out of the Emerson Collective offices in Palo Alto, California or Washington, D.C., with some exceptions for a small number of teams.

Interns work across teams on a wide range of issues. Summer interns will also participate in weekly programming designed to develop leadership capacity and build professional networks.

## Scope

The People (HR) Team powers the experience of Emerson Collective employees, and of those in the EC ecosystem. A summer internship on the People Team will provide an in-depth lens into the inner workings of our HR & Recruiting operations as well as the opportunity to work alongside a collaborative team that provides support across the entire organization. Interns should have a general interest in HR and/or Talent, interest in one or more of our core areas of focus, including but not limited to, onboarding, recruitment, benefits, HR tech systems, performance feedback, employee relations, DEIB (diversity, equity, inclusion, and belonging) initiatives, and/or compliance. The People Team interns will contribute to several projects simultaneously in many of the core team functions – with assignments ranging from research on various roles, people program operations and analytics drafting, reviewing position descriptions, assisting with online job postings, and facilitating the onboarding of new hires. The intern will build their capacity to manage and prioritize a range of responsibilities. Successful candidates should exhibit exceptional attention to detail, sound judgment, excellent communication skills, the ability to prioritize and manage tasks with competing priority levels, a proactive attitude, and the ability to maintain confidentiality and discretion at all times. The People Team intern will work at Emerson Collective Offices in Palo Alto.
